

What is the Format Festival?

Media Release Response

Format Festival 2009

Format is a festival themed around DIY, participatory culture and the intersection of art and activism, taking place from March 1st to March 15th in the glorious city of Adelaide. On the weekend of March 13th to 15th, it culminates in the 4th Adelaide Zine and DIY Fair, a cycling film bonanza entitled Bikes, Camera Action, the ST5K street art festival and a series of workshops and panels entitled The Academy of DIY. For the two weeks prior to that, we'll be running a two week marathon of shows, panels, exhibits, performances and general good times.
